Technical Skills: System design & build; Python Fundamentals; HTML 5, CSS; SQL; Microsoft Office Suite; Windows OS; Linux; MacOS; VMWare; WireShark

EMPLOYMENT

November 2016 - Present	Bunnings Warehouse:
2020 - Present	Trade Desk Lead
2018 – 2020	Trade Desk Assistant
2016- 2017	Shelf re-stocker

As an essential team member working in the Builder's Department, I am tasked with independently managing the trade desk and providing across-store support to other team members in various departments.

- Sales Transaction Systems
- Customer Order Systems
- Customer Service, such as, maintaining customer delivery expectations
- Stock matrices reports
- Onboarding new team-members
- OHS and safe COVID-19 procedures.
- Timber Specialist

January 2020 - Present **Pandemic Computers, Owner**

At the start of the pandemic, I assisted friends doing upgrades and building specialised custom gaming computers. This service has grown by word of mouth and in addition to providing technical support I am building on average 2 systems a month. My most recent build was a high-capacity astronomy imaging processing system.
